### Description:

TFBA is a non-rigid PVC banner with a water-resistant Inkjet coating on the front side.

It is possible to print with dye-based and pigmented inks.

You will achieve best results with pigmented inks.

The medium is qualified for outdoor application and can be eyed, sewed and welded on its back side.

To avoid breaks, the printed banner should be furled before moving.

To avoid fingerprints it is advisable to wear cotton gloves.

### Typical Applications:

Exhibition Panels  
Banners
